

LASSEN COUNTY COURTHOUSE HISTORICAL RENOVATION

DESCRIPTION OF PROJECT

The Lassen County Courthouse was designed by George Sellon the founder of Lionakis Architects. Dedicated in 1917, this courthouse served the county until 2012 when a new courthouse was built. Now over 100 years later, Broward Builders partnered with Lionkais for the restoration.

In 2021, Broward began the modernization process of the 21,842 square foot space that included seismic upgrades, new elevator and exit stair, site accessibility and a electrical service upgrades. Tremendous efforts were taken to install protections for historical features. Detailed coordination and planning was necessary to install the seismic/structural improvements to minimize the impact to the architectural features on the walls and ceilings.

SELF-PERFORMED WORK

- Structural and site concrete
- ADA upgrades
- Grading / paving
- Metal studs / drywall
- Carpentry

CLIENT:

Lassen County

ARCHITECT:

Lionakis

COMPLETED

October, 2021

CONSTRUCTED VALUE

\$3,149,545

DELIVERY METHOD

Design-Bid-Build
