

SACRAMENTO CITY COLLEGE NATURAL SCIENCE BUILDING

DESCRIPTION OF PROJECT

Broward Builders completed the Sacramento City College Natural Science Building in August 2023. The newly constructed facility houses the college's Biology, Chemistry, Geology, Physics, and Geography programs.

This project consisted of the demolition of the existing building and portable on the existing community college campus, along with the construction of a new, replacement science building. Surrounding site improvements included a new gazebo at the location of the building demolition.

This project achieved LEED Gold.
